Summary

Motivated B. Tech Information Technology student with a strong interest in Software Development, Web Technologies, Cloud Computing, and AI-based applications. Skilled in Java, Python, MySQL, HTML/CSS/JS, and cloud platforms including AWS and Azure. Proficient in ServiceNow, holding both Certified System Administrator (CSA) and Certified Application Developer (CAD) certifications. Experienced in developing academic projects involving Machine Learning, Data Mining, and Web Development.

Technical Skills

Programming Languages	: Java(developing), Python(proficient), C(proficient)
Web Technologies	: HTML5(proficient), CSS3(proficient), JavaScript(developing)
Database Management	: MySQL(proficient), CRUD Operations, MongoDB(developing)
Cloud Platforms	: Amazon Web Services (AWS), Microsoft Azure, Virtual Machines
ServiceNow	: ServiceNow Administration, Workflow Automation, Application Development
Machine Learning & AI	: CNN, Transfer Learning, Deep Learning, Image Processing, Computer Vision
Data Analysis	: Pandas, NumPy, Matplotlib, Data Cleaning, Data Visualization
Tools & Platforms	: Git, GitHub, VS Code, XAMPP

Education

B. Tech Information Technology | K. Ramakrishnan College of Technology, Tiruchirappalli.

2023 – 2027

Higher Secondary (HSC) | Sri Bala Vidya Mandir Matric Hr. Sec. School, Tiruchirappalli.

2022 – 2023

Secondary School (SSLC) | Sri Bala Vidya Mandir Matric Hr. Sec. School, Tiruchirappalli.

2020 – 2021

Experience

Web Development Intern | VaultofCodes

Jul 2026 – Aug 2026

Developed an interactive and dynamic portfolio webpage for Editkaro.in, a social media marketing and video editing agency. Gained practical experience in responsive design and real-world project deployment.

Projects

Plant Disease Detection – Design Project

Developed a deep learning-based system to identify plant diseases from leaf images. Used CNN and image processing techniques for classification. Improved disease detection accuracy using transfer learning.

Land Price Prediction System – Business Intelligence

Built a prediction model using business intelligence and data analysis techniques. Analysed historical land price data for future price estimation.

Color Detection System – Data Mining Techniques

Developed a color recognition application using OpenCV and image processing techniques to detect RGB values and identify the closest matching color name.

Certifications

- ServiceNow Certified Application Developer (CAD) - ServiceNow
- ServiceNow Certified System Administrator (CSA) – ServiceNow
- Microsoft Azure Administrator Associate Level – Simplilearn
- Design Thinking: A Primer – NPTEL (IIT Madras)
- Cloud Architect Master's Program – Simplilearn
- Python for Data Science – NPTEL (IIT Madras)
- Responsive Web Design – freeCodeCamp
